## ABOUT ME

I'm a front-end-developer (ReactJS), 1 year of experience. I'm designing and developing websites to be easy to use. I'm optimizing web design for smartphones. I balance functional design with esthetic design. I use a variety of accent languages to write web pages. and I keep my skills updated and learning Modern technologies to make the website more interactive with users.

## WORK EXPERIENCE

**React.js developer At Stackzy** (march 2022) - present

Main Project:- https://11s.deploystage.com/
Eleven Stats is the future of data analytics for football (soccer) fans. We help reduce the barrier for entry into professional-level data by making it affordable for the average fan, contributing towards the democratization of data in the sport
**Role Responsibilities:**
- Translate Figma design to code by mui library
- Add functionality to the design.
- integrate the design with the backend-end by endpoints.
- Attach endpoints with a redux library.
- worked as a tester and extract the bugs.
- Fix bugs (design - functionality) in the project.
- using next.js.
- Build projects using TypeScript as well as JavaScript.
- Working with Linux.
-Collaborate with the back-end team for integration
-Discuss with the team about the difficult problems.
-Use GitHub and git commands to work on the same projects without causing any conflicts.

Technology:- HTML , HTML5 , CSS , css3 , React.js , Redux.js , mui , Linux , TypeScript , JavaScript , Next.js

**UI & UX designer At Upwork** (july 2021) - present

- Design a UI & UX for an education website

Technology :- Figma

https://www.behance.net/gallery/127695099/UI-UX-design
