ABOUT ME

I am a dedicated Front-End Developer with 3+ years of experience building intuitive, high-performance web applications. I specialize in React.js, Next.js, and JavaScript (ES6+), with a strong focus on delivering scalable, responsive solutions. My work at URANIUM Software includes leading the development of the Zain Sudan Content Management System, significantly improving website usability and performance. Additionally, I contributed to the democratization of football data with Eleven Stats, a platform that makes professional-level analytics accessible to fans. I thrive in Agile environments, collaborating with cross-functional teams to solve complex challenges and create seamless, dynamic interfaces. My goal is to continue delivering innovative front-end solutions that blend functionality with creativity.

TECHNICAL SKILLS

- Html, Html5
- Css, Css3
- Javascript , ES6 , jQuery
- ReactJS , Hooks , Redux
- MUI, Bootstrap
- NextJS
- TypeScript
- GulpJs
- Sass
- Figma, AdobeXD
- Git, Github
- Sharepoint

SOFT SKILLS

- Strong Technical Expertise
- Dedication to Lifelong Learning
- Extensive Project Involvement
- Meaningful Workplace Impact
- Problem-Solving
- Collaboration and Teamwork

CERTIFICATES

- CS fundamentals Programming At Route Academy   Jan 2023
- Front-End Web Development with React   Jun 2020
- The Complete JavaScript Course 2020   Oct 2020
- The Complete React Developer Course   Nov 2021

SOME OF MY PROJECTS

EDUCATION

| SEP 2018 | — | JUNE 2021 | Al-Azhar University Faculty of Arabic language |

i am a self-learner, i have learned front-end web developer through online courses like coursera and udemy

WORK EXPERIENCE

Front-end web developer At Uranium   Feb 2023 - present

• Developed and maintained high-performance, responsive web applications using React.js, Next.js, and JavaScript (ES6+).
• Led the design and development of a content management system for Zain Sudan, boosting website performance by 70% and enhancing user experience across all devices.
• Worked in Agile/Scrum teams, collaborating with product owners and developers to successfully deliver key projects like DMS, Silo, and Violation Management Systems.
• Reduced search result times by 80% through code optimization, improving the speed and efficiency of dynamic content delivery.
• Translated complex UI/UX designs into interactive, accessible interfaces, ensuring pixel-perfect accuracy in React.js.
• Integrated RESTful APIs and external services, ensuring smooth data flow and a seamless front-end experience.
• Ensured cross-browser compatibility and adherence to WCAG standards, improving accessibility and usability for all users.
• Applied best practices in code modularization and task automation using Gulp and Webpack to enhance performance and scalability.
• Conducted code reviews, troubleshooting, and debugging to resolve performance bottlenecks and UI issues.

React.js developer At Stackzy   march 2022 - jan 2023

• Built intuitive, responsive front-end components for Eleven Stats, a football analytics platform, facilitating the democratization of football data for users.
• Designed fully responsive applications with clean, modular code for optimal performance.
• Provided technical solutions for complex business requirements, contributing to the democratization of data in football analytics.
