ABOUT ME

I'm a front-end-developer (ReactJS), 1 year of experience. I'm designing and developing websites to be easy to use. I'm optimizing web design for smartphones. I balance functional design with esthetic design. I use a variety of accent languages to write web pages. and I keep my skills updated and learning Modern technologies to make the website more interactive with users.

EDUCATION

- SEP 2018 – JUNE 2021 Al-Azhar University Faculty of Arabic language

WORK EXPERIENCE

- **Front-end web developer At Uranium** (Feb 2023) - present

- Work with Sharepoint platform to develop UI fastly by improving the work with the team on projects

Improved the error logs and performance metrics instrumentation to make it easier to find critical bugs related to UX or web performance.

- Optimized code performance by 70% rather than old way code with modularity and task runners.

- Coding with an efficient reusable piece of code and more clean code ways avoiding repeating code.

- Minimized the Search result time of issues and problems by 80% by listing huge problems that faced before.

Technology :- HTML , HTML5 , CSS , css3, JavaScript , Sharepoint Designer , gulp js , sass

- **React.js developer At Stackzy** (march 2022) - (jan 2023)

Main Project:- https://11s.deploystage.com/
Eleven Stats is the future of data analytics for football (soccer) fans. We help reduce the barrier for entry into professional-leve data by making it affordable for the average fan, contributing towards the democratization of data in the sport

Role Responsibilities :-

- Translate Figma design to code by mui library

- Build projects using TypeScript as well as JavaScript.

- integrate the design with the backend-end by endpoints and Attach it endpoints with redux

- worked as a tester and extract the bugs and fix it design and functionality

- Collaborate with the back-end team for integration

-Discuss with the team about the difficult problems.

-Use GitHub and git commands to work on the same projects without causing any conflicts.

Technology :- HTML , HTML5 , CSS , css3 , React.js , Redux.js ,mui , TypeScript , JavaScript , Next.js

- **UI & UX designer At Upwork** (july 2021) - present
